It has come to the knowledge of the Government of His Highness the Maharaja that an organised system of recruitment of coolies in Mysore for labour in foreign countries is prevailing in some parts of the State, and they have reason to believe that several persons, including young and in experienced persons, are being induced to emigrate by the recruiters under various pretences and false representations as regards the condition of life, labour and wages in such foreign places. The Government consider that these facts should be generally known throughout the State, and the public are hereby warned of the risks they run in acting on the inducements offered by the recruiters in question, without making careful inquiries for themselves.
